Sir:

Applicant hereby files this response to the special program examiner's August 7, 2001 request for a substitute specification. In a telephone conversation on August 7, 2001, the examiner noted that the Applicant's filed specification had several pages that had a light blue coloring. Applicant notes that such coloring was inadvertent. In response to the examiner's request, Applicant hereby files the enclosed 24 page substitute specification. Applicant avers that the enclosed substitute specification contains no new matter and that the enclosed substitute specification is identical to the specification Applicant filed on May 29, 2001 except that the enclosed specification is not colored with a light blue color.

DATE: August 10, 2001

Respectfully submitted,

Michael R. Schramm
